Nigeria Crisis

In Nigeria, prices go up a lot in August. Every year, the country looks at how much things cost. This is called inflation. And this time, it is really high at 25.8%. It is the highest number in 18 years. President Bola Tinubu does some things in May which make prices go up. He stops giving extra money to people and companies for petrol. He changes the way how money works between countries. This means that food and transport cost more now. And people are very upset.

Experts say that this happens because the money in Nigeria is more expensive.
